

Perimeter Detection Systems

# ACTI-FENCE®

## Strengths

- **High mechanical strength :**  
no welding spots
- **100% detector fence :**  
panels  
anti-climbing caps
- **Alarm triggered by :**  
cutting  
ripping  
climbing
- **No false alarms**

Registered  
Design

# High Performance alarm

- **Signalling cabinet compatible with all systems**
- **Instant response time**
- **Detection accuracy for each panel**
- **Multizone alarms**

## Product Applications

Applications specific to sensitive site :

- **Estate enclosure fence**
- **Wall tops**
- **Security entrance**
- **etc.**

Customised application with 1 sqm pannels to create a high security cage to protect a security door.

Fence with base plat option

### DETECTION PANEL

|                |   |
|----------------|---|
| Description    | Metal perforated panel  |
| Material       | Aluminium   |
| Plastification | Polymerized polyester powder<br>Finish coat<br>Total thickness (200 microns)    |
| Dimensions     | To be determined with the client  |
| Perforation    | Rhombus-shaped in Standard  |
| Colour scheme  | RAL Standard : Grey 7022<br>Option : tamper-proof stainless steel nuts          |
| Brackets       | Stainless steel screws and rivets<br>Option : tamper-proof stainless steel nuts |

### ASSOCIATED POLES

|                |  |
|----------------|--|
| Material       | Aluminium  |
| Plastification | Polymerized polyester powder<br>Finish coat<br>Total thickness (100 microns) |
| Height         | To be determined with the client   |
| Colour         | RAL Standard : Grey 7022   |

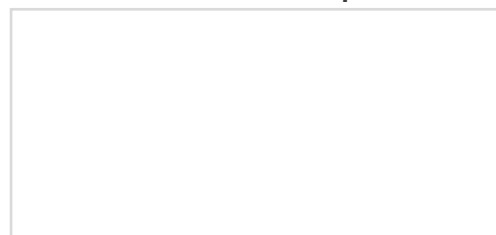

### ANTI-CLIMBING CAP

|                              |   |
|------------------------------|---|
| Description                  | Dynamic system sensitive to climbing<br>Can be integrated to the pole |
| <b>COMPETITIVE ADVANTAGE</b> | Automatic anti-climbing cap rearming                                  |
| Dual Protection              | Physical Protection : Detecting<br>Fence : Prevent to intervene       |
| Anti-climbing cap format     | Straight / 45° / «V» shaped   |
| Additional protection        | Possibility to associate barbed wire or concertina or panel           |

### BOTTOM PIATE AS AN OPTION

|             |                      |
|-------------|----------------------|
| Description | Sheet pile / Panel   |
| Material    | Concrete - Aluminium |
